
book 3

:kiss: I saw a completed project with a pattern from book 3....it is a bear sitting in clover or something with a little frog?? (it was a while ago) I know it came from book 3 but since it is sold out I am having a hard to tracking one down. Does anyone know of where to find book 3 for sale or resale?

Have you checked out eBay? That's usually a good place to find books,
